

WHAT IS SUCCESS?

SUCCESS is a free service that pairs early learning centers with Early Childhood Mental Health Consultants to support the social, emotional, and behavioral health needs of identified children. We strive to collaborate with early learning centers to ensure all children have access to a safe and supportive learning environment, enter school ready to learn, and are poised for future success.

SUCCESS

Early Childhood Mental Health Consultation to support children, families, and early learning centers.

Supporting Children's
Competencies in
Emotional and Social
Skills

OUR SERVICES

SUCCESS offers consultation services to support children's social and emotional development and to reduce challenging behaviors in the classroom. A variety of services are provided on-site at your center, and may include:

Brief consultations of individual children using classroom observations, standardized questionnaires, and conversations with program staff and children's caregivers.

Feedback and recommendations provided to program staff and families regarding consultation findings.

Development of a **Collaborative Action Plan** with program staff and families.

Follow-up supports to integrate consultation recommendations, including:

- * Supporting staff to assess, plan for, and intervene with challenging classroom behavior.
- * Helping families get connected to community supports and services.
- * Classroom- and program- level consultation to enhance Centers' capacities to respond to children's social, emotional, and behavioral health needs.

How can we help this child:

- ⇒ Follow classroom rules and behave appropriately in the classroom?
- ⇒ Get along with peers?
- ⇒ Express strong emotions appropriately?
- ⇒ Get along with adults?
- ⇒ Build confidence in his/her ability to learn and play independently?
- ⇒ Adjust to a stressful life event or family transition?

If you ask these questions, consider a referral to **SUCCESS**.

OUR STAFF

SUCCESS is staffed by Early Childhood Mental Health Consultants (ECMHCs). Our ECMHCs are graduate-level professionals who have expertise in early childhood mental health and experience providing consultation to early childhood education programs.

REFERRING TO SUCCESS

If you have concerns about a child's development, social and emotional skills, or behavior in the classroom, consider referring to SUCCESS. Families are important partners in our efforts to support young children and will be a part of the consultation process; therefore, families must agree to all referrals.
